TECHNICAL DATA SHEET

PEARL OIL DURON GEAR EP 220

220 | 16L

DURON GEAR EP 220 is an industrial EP gear oil for enclosed gear units requiring ISO VG 220. Its extreme-pressure additive system helps protect gear teeth against scuffing and wear under high load, while oxidation stability supports long lubricant life and deposit control. Good demulsibility and corrosion protection help maintain reliable operation in circulating and splash-lubricated industrial gear systems.
